DESCRIPTION

Compact round pocket mirror, Ø6 x 0.5 cm, intended for personal care and quick make-up checks. The reflective surface is glass, set into a slim hinged casing for easy storage in a bag or make-up pouch. Its flat profile and straightforward design make it low-maintenance — simply wipe the glass with a soft cloth.

The mirror features a basic construction: a central glass mirror mounted in a lightweight plastic housing with a hinge. There are no additional features such as pockets or closures; its practicality is its strength, offering clear reflection in a small footprint.
