Average weight	0.056
Dimensions	4,5 x 4,5 x 4,5 CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

This wooden indoor game is a dissection puzzle made of seven interlocking pieces that form a 3x3x3 cube (final dimensions 4.5x4.5x4.5 cm). Supplied in a cotton pouch and crafted from FSC® 100% wood, it offers a tactile, sustainable option for workshops, promotional packs and educational use.

The pieces feature a natural, unvarnished finish and slot together cleanly without metal parts. The cotton pouch makes storage and transport straightforward, suitable for events, classroom activities or as a compact giveaway. The set also allows builders to create a variety of alternative 3D shapes beyond the basic cube.

This personalised indoor game can be marked by screen printing on objects, multicolour transfer, DTF printing or flex to apply your logo or design. Minimum order: 100 pieces (colours and sizes combined). Recommended for companies, clubs, schools, associations, events and private customers seeking a thoughtful, playful gift.
