DESCRIPTION

The Cosy wall clock is a compact desk accessory with a Ø23 x 4.2 cm profile, suited to offices, meeting rooms and reception areas. It features a slim round case, raised hour markers and conventional hands, all made from PS, and uses a simple 'clic-clac' mounting system. Runs on one AA battery (not included). Care is limited to light dusting or gentle cleaning without solvents.

Its minimalist, highly legible face makes it practical for corporate environments — meeting rooms, reception desks or promotional gifting. Functional details such as the central seconds hand, raised indices and a slightly recessed dial edge help with time reading and give a neat wall presence.
