DESCRIPTION

This Lambut tube of 12 coloured pencils combines a compact paper cylinder with a transparent cap for office, school or promotional use. The set contains short coloured pencils that are easy for children to grip; the paper body gives a tidy, low-weight presentation while being practical to carry at Ø3.6 x 10.5 cm. The materials and format make it a convenient giveaway or kit for everyday use.

The transparent cap includes an integrated sharpener for immediate use without extra tools, and fits securely by push-fit. The paper finish provides a matte surface that takes print well and protects the pencils inside. The product is offered in several colours, for example Blue Transparent, Red Transparent and Yellow Transparent, making it suitable for a wide audience.
