DESCRIPTION

The Globy keyring is a zinc-alloy metal accessory with a circular design suited to everyday use. Its compact round shape and polished finish provide a smart, neutral look ideal for corporate gifting. Size: 7 x 3.4 x 0.4 cm; supplied in a gift box and easy to attach to a set of keys.

The central disc accepts a decorative insert or marking that remains visible while the split ring and connector ensure a secure attachment to keys. The metal surface keeps its appearance with simple cleaning using a soft cloth.

This personalised keyring can be decorated by laser engraving, pad printing or doming depending on the finish required. Recommended for companies, clubs, associations and events. Minimum order: 100 pieces (colours and sizes combined); smaller quantities can be produced but incur additional fees. Our design studio can retouch or vectorise your logo prior to production.
