Reference	KC7130
Composition	ABS
Material	ABS
Average weight	0.07
Dimensions	9 x 4,9 x 3,3 CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

The Dynasol torch is a compact, practical light designed for portable use. Its ABS body features a curved ergonomic shape for easy handling; it houses three LEDs at the front, a solar panel on top and a fold-out dynamo crank to recharge the internal 40 mAh battery. At 9 x 4.9 x 3.3 cm it slips easily into a bag or glove compartment, with a satin silver spray finish giving it a discreet, professional look.

Built in ABS for everyday durability, the crank deploys for manual charging and folds away for transport. The simple, sturdy design makes it suitable for outdoor events, promotional campaigns and as a useful giveaway for staff or clients.

The Dynasol can be personalised by tampography, producing a clean print on the smooth casing. Minimum order: 50 pieces (colours and sizes combined). Ideal for companies, clubs, associations and events. Free quote within 24 hours on weekdays and a studio is available to vectorise your logo.
