DESCRIPTION

Practical shoulder bag designed for carrying trekking or safety shoes, with a rectangular, compact shape. This unisex item is made from 100% polyester and features two separate compartments that provide generous capacity while keeping footwear organized. The carry handle is stitched around the body of the bag to reinforce strength; the fabric looks durable and easy to care for.

A zip runs along the front and side for easy access to both compartments. Visible seams and a structured profile ensure the bag keeps its shape, and the straightforward cut makes it simple to pair with other luggage. Available in several colours, for example Black and Navy, in one size.

This personalised shoulder bag can be customised from a single piece and suits companies, sports clubs, associations and individuals who want branded accessories. Possible marking techniques: screen print transfer, MSO transfer, DTF printing and flex. Our design studio can vectorise your logo and a free quote is provided within 24 hours on weekdays.
