DESCRIPTION

This unisex belt is made from thermoplastic elastomer with a one-size fit adjustable from XS to 3XL via a transparent plastic buckle. Slightly elastic for added comfort, it won't set off airport security and does not generate static electricity. Supplied in a rigid plastic box, it is available in several colours such as Black, Fuchsia and Yellow.

The visible details include central adjustment holes and an integrated buckle that simplifies fastening and improves hold. The durable material tolerates frequent use and is easy to wipe clean; the adjustable length adapts to different sizes without visible additional seams, giving a neat finish.

This personalised belt can be customised from 1 piece for companies, sports clubs, associations, events and private orders. Suitable marking methods for this plastic item include tampography, DTF printing, screen printing, transfer and digital printing on objects. Our studio can vectorise or retouch your logo before production.
