DESCRIPTION

Unisex polar fleece scarf made of 100% polyester micropolar, soft with an anti-pilling finish. Versatile in use, it can be worn as a neck warmer or converted into a hat, providing lightweight insulation without bulk. The one-size fit combined with an adjustable elastic cord gives a secure, comfortable fit suitable for outdoor activities and everyday wear. The fabric is easy to care for and designed to retain its appearance.

Simple, clean finishes and discreet stitching allow the piece to sit neatly under jackets. Available in multiple colours such as Black, Dark Grey and Navy, supplied in one size to suit most wearers. The anti-pilling treatment helps preserve the fabric after repeated washing.

This item is ideal as a personalised scarf for companies, sports clubs, associations, events and private customers: we offer embroidery (embroidery) and have a design studio to refine or vectorise your logo. It can be personalised from 1 piece.
