DESCRIPTION

This men's short-sleeve tunic features a V-neck and a practical chest pocket. The fabric blend (42% polyester, 33% recycled polyester, 19% viscose, 6% elastane) gives a soft hand and light stretch, with breathable properties for comfortable all-day wear. Available in several colours and sizes S to 3XL, the modern cut suits clinical and service environments.

Side slits boost mobility at the hips and the neat neckline finish keeps the look tidy. The straight, uncluttered fit seen in the photo makes layering easy while preserving freedom of movement and a professional appearance.

This personalised tunic can be customised from one piece and accepts DTF printing, screen printing, transfer, flex and embroidery. Recommended for companies, clinics, sports clubs, associations, schools and private customers seeking a practical, branded garment.
