Pack of 100 Conical Aluminium Studs

PROACT · Ref. PA066

Reference	PA066
Brand	PROACT
Composition	100% Aluminium
Material	Aluminium
Country of origin	Taiwan
Carton	20 pieces

DESCRIPTION

Pack of 100 conical aluminium studs designed for rugby on soft, muddy pitches. Made from aluminium and available in four sizes (13 mm to 21 mm) to suit different turf depths and traction needs. Intended for fitting to boots or technical armbands, these studs provide a lightweight, durable way to improve grip on soft ground.

The conical profile and round flange seen in the photo help the stud penetrate the surface and reduce soil build-up. Each stud features a threaded fixing for secure attachment; the pack of 100 makes it easy to replace multiple worn studs at once.

These studs can be personalised for clubs, associations, schools, companies and individuals through our design studio. Available marking technique: embroidery. Customisation from one piece is possible — our studio can retouch or vectorise your logo and provides a free quote within 24 hours on weekdays. Collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
