Pack of 12 conical aluminium studs

PROACT · Ref. PA073

Reference	PA073
Brand	PROACT
Composition	100% Aluminium
Material	Aluminium
Country of origin	Taiwan
Carton	200 pieces

DESCRIPTION

Pack of 12 conical aluminium studs designed for rugby use on soft, wet ground. The pack includes 8 studs at 13 mm and 4 studs at 16 mm, made from 100% aluminium. Each stud features a conical shape with a threaded post for screw-in attachment, providing secure grip on turf while remaining lightweight. The studs are presented in a blister pack for neat storage and transport.

In practice these studs are easy to fit and replace thanks to the threaded fixing; the aluminium finish also makes post-match cleaning straightforward. They suit rugby boots with compatible fittings and are available in several colour options, for example silver. Check sole compatibility before ordering.

Customisation available for clubs, teams, sports retailers, associations and individuals: we offer marking of accessories using pad printing (tampography), screen printing and digital printing on objects. Personalised studs — can be customised from one piece, with our graphic studio to vectorise or retouch your logo. Free quote within 24 h on weekdays; collect at our Evere workshop or delivery in Belgium, France and Luxembourg.
