30m tape measure

PROACT · Ref. PA077

Reference	PA077
Brand	PROACT
Composition	100%
Material	Metal
Country of origin	Taiwan
Carton	40 pieces

DESCRIPTION

This 30 m measuring tape is designed as training and field equipment for occasional or regular use. It features a closed, slim cassette (2 mm stated thickness at the edge) with a fiberglass tape and a metal crank for smooth rewinding. The round, compact housing makes it easy to carry and store, while the tape end has a metal hook and a plastic tip for protection during measuring tasks.

In practical use the crank ensures steady retraction and the sturdy construction resists snags during use on grass or hard surfaces. The fiberglass tape maintains its straightness over distance and requires minimal care: wipe down after use and avoid prolonged immersion.

This item can be ordered and personalised from one piece and is suitable for companies, clubs, associations and events. Available marking techniques include tampography, screen printing and digital printing on objects; our studio can also vectorise your logo. Use it as a promotional tool or as reliable equipment for on-site measurements.
