Ball carry bag

PROACT · Ref. PA522

Reference	PA522
Brand	PROACT
Composition	100% Polyester
Material	100% Polyester
Fabric weight	430 g/m²
For	Men's
Country of origin	India
Carton	20 pieces

DESCRIPTION

Men's ball bag made from 100% polyester with a mixed construction combining ventilated mesh panels and PVC-coated polyester. The mesh front allows rapid drying of balls and helps reduce lingering odours after practice. One size fits most for carrying several balls; an adjustable polypropylene shoulder strap gives comfortable carrying and a drawcord closure at the top secures the contents. Simple rinsing with water is enough for basic maintenance.

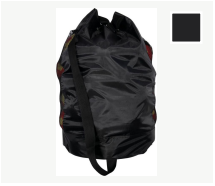

The bag features a large mesh face for airflow and denser woven sides and base to protect the load. The adjustable strap and drawstring closure are visible in the image and make access and transport straightforward on the pitch.

Personalised from one piece, this ball bag can be finished with embroidery, DTF printing, flex, screen printing, transfers, embroidered patches or pad printing depending on the desired look. Suitable for clubs, schools, associations, events and individuals seeking a personalised ball bag.

KEY FEATURES

- Openwork canvas to allow balls to dry fast.
- Adjustable shoulder strap.
