Ball carry net

PROACT · Ref. PA523

Reference	PA523
Brand	PROACT
Composition	100% Polypropylene
Material	Polypropylene
Country of origin	India
Carton	75 pieces

DESCRIPTION

This ball net is made from 100% polypropylene, braided at 4 mm, designed for carrying and storing balls. Lightweight yet durable, it can hold up to 10 balls. It comes in one size with large mesh and knotted intersections providing ventilation and secure retention of the balls.

The net includes a top loop for carrying or hanging and a regular mesh pattern to evenly distribute weight. Its practical construction makes it easy to fold and stow in a kit bag, ideal for sports clubs on the move and frequent use at training or matches.

This personalised ball net can be customised from a single piece for clubs, associations, schools, events and individuals. Marking options include embroidery, DTF printing, flex, screen printing, transfer (1-colour and multicolour), embroidered patches, pad printing and digital printing on items. Our graphic studio can retouch or vectorise your logo if required.

KEY FEATURES
