DESCRIPTION

This shoe sac is made from 100% polyester 600D and features a compact, structured shape designed to keep a pair of shoes separate from other sports gear. It has a stitched webbing handle on the side and a zip closure for easy access. The fabric offers good shape retention and straightforward care, suitable for regular use by teams or individuals on the move.

The one-size format and slightly rounded top accommodate low and mid-height shoes; visible stitching and the black zip/webbing reinforce wear points. Lightweight and low-profile, it slips conveniently into a gym bag or locker.

This personalised bag can be customised from one piece using screen printing transfer, MSO transfer, DTF printing or flex. Recommended for companies, sports clubs, associations, schools and private customers — our studio can retouch or vectorise your logo for optimal printing.
