Pack Of 3 Inflating Needles

PROACT · Ref. PA697

Reference	PA697
Brand	PROACT
Composition	100%
Material	Metal
Country of origin	Taiwan
Carton	500 pieces

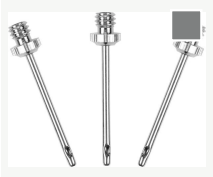

DESCRIPTION

Set of 3 metal inflation needles designed for inflating balloons and sports balls. Each needle features a hollow tip to allow airflow and a threaded base to attach to a pump, with a knurled head for easier tightening. Supplied in blister packaging, the simple metal construction makes them practical for occasional or regular use.

The one-size design and lack of moving parts keep maintenance minimal: a rinse and dry after heavy use helps prevent corrosion and prolongs service life. The compact form factor is easy to store in a kit or equipment bag.

These items can be personalised from one piece and are suitable for companies, sports clubs, associations and events seeking personalised inflation equipment. For marking on metal we offer tampography, screen printing and digital printing on objects. Our design studio can vectorise your logo; free quote within 24 hours on weekdays, collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
