Pack Of 12 Inflating Needles

PROACT · Ref. PA698

Reference	PA698
Brand	PROACT
Composition	100%
Material	Metal
Country of origin	Taiwan
Carton	200 pieces

DESCRIPTION

Kit of 12 metal inflation needles, suitable for standard pumps and compressors. Each needle is made from silver-coloured metal with a slim, elongated shape and a visible inlet hole at the tip, allowing precise inflation of balloons and sports balls. Supplied in a blister pack, the kit is practical for club use, events or as part of maintenance equipment.

In practice the needles feature a threaded fitting that secures reliably to most pump nozzles. The metal finish is easy to clean and resists wear, while the 12-piece blister keeps spares available to avoid shortages during training sessions or events.

This personalised inflation needle can be customised from one piece. For marking we offer pad printing, screen printing and digital printing on items; our graphic studio can retouch or vectorise your logo. Recommended for companies, sports clubs, schools, associations and event organisers. Free quote within 24 hours on weekdays; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
