Challenger T5 Ball

PROACT · Ref. PA824

Reference	PA824
Brand	PROACT
Composition	100%
Material	Rubber
Fabric weight	440 g/m²
Country of origin	India
Carton	50 pieces

DESCRIPTION

Size 5 training rugby ball constructed with three laminated layers (two cotton layers and one polyester layer) and a latex bladder for air retention. The grippy finish provides enhanced grip for all-weather use, and the ball is hand-stitched for a traditional seam structure. It is available in several colours, for example White, Black and Gold.

The textured surface improves handling and passing accuracy while the hand-stitched panels deliver a consistent playing surface and durability suited to regular training. Care is straightforward: maintain correct inflation and check the bladder periodically.

Personalised rugby ball available from a single piece: marking can be done by pad printing, screen printing or digital printing. Ideal for sports clubs, schools, associations, events and individuals wanting a personalised rugby ball with their logo.

KEY FEATURES

- Grip grain pattern for use in all weather.
- Hand-stitched.
