## DESCRIPTION

Boot bag in 420D polyester designed to protect and carry a pair of boots. The tall, tapered shape features a large vertical zip, a sturdy webbing handle and an internally reinforced base to keep the bag's form. Ventilation via a mesh panel and an external name holder help air the boots and identify contents. The model comes in several colour combinations, including Bottle Green/Black, French Navy/Black and Black/Graphite Grey, and can be personalised from a single piece.

Rubber feet protect the base and improve stability when placed on the floor. Visible stitching and the zip shown in the photo indicate a practical finish for regular use; care is generally limited to spot cleaning the polyester and air drying after airing.

This personalised boot bag can be marked by screen printing transfer, MSO transfer, DTF printing or flex. Recommended for sports clubs, youth movements, schools, associations, companies and private customers who need identifiable, branded footwear storage.
