Label	Tear-away (ideal for branding)
Country of origin	China
Carton	10 pieces

DESCRIPTION

This unisex bodywarmer is sleeveless for easy layering over a sweatshirt or shirt. Constructed from a bonded 3-layer fabric (93% polyester, 7% elastane) with a microfleece inner, it delivers stretch, comfort and thermal insulation while remaining wind- and water-resistant thanks to the durable water-repellent finish. Suitable for professional and outdoor use; follow the care instructions to protect the membrane and finish.

Functionally, the garment features a central YKK zip, two zippered hip pockets and a zip chest pocket visible in the photo. An adjustable drawcord at the waist improves fit and the reinforced seams enhance durability; the stretchy fabric allows freedom of movement.

This personalised bodywarmer is ideal for companies, sports clubs, associations, schools and individuals. It can be customised from one piece on a wide range of textiles by embroidery, screen printing transfers, DTF printing, flex or MSO transfer depending on the finish required. Available in several colours (for example Black, Navy, Red) and sizes S to XXL.
