Material	100% Polyester
Average weight	1200 g
For	Unisex
Fit	Loose
Label	Tear-away (ideal for branding)
Standards	Visibilité accrue
Country of origin	China
Carton	10 pieces

DESCRIPTION

This unisex parka combines weather protection with practical features for outdoor work. Constructed from 190T polyester with a PVC coating and 140 g/m² insulation, it has thermally welded seams and a quilted polyester lining for added warmth. The hood tucks into the collar for a neat finish. It is offered in several colours (Black, Navy) and sizes S to 3XL.

The long cut includes a storm flap secured by press studs, two front pockets with press studs, an external phone pocket and an inner pocket. 50 mm stitched reflective bands across the chest, sleeves and hem increase visibility in low light. A back access opening allows marking without removing the parka.

This personalised parka can be customised from a single piece and suits companies, clubs, associations, events and site staff. Available marking techniques: screen printing transfer, Transfert MSO, DTF printing, flex and embroidery. Our studio can vectorise and prepare your logo for production.
