Result · Ref. R322X

Reference	R322X
Brand	Result
Composition	100% EVA (Ethylene vinyl acetate)
Material	EVA
For	Unisex
Country of origin	China
Carton	50 pieces

DESCRIPTION

Unisex work knee pads made from 100% EVA, designed to be lightweight and flexible for everyday comfort. The moulded, segmented surface absorbs shocks and moves with the knee to provide protection without restricting mobility. Supplied as a pair and intended to be placed in the pockets of compatible Work-Guard trousers, they are suitable for regular use on site or in workshops and can be cleaned with water if required.

The one-size design fits most work trouser styles that include pockets for knee inserts. The block-panel construction reduces pressure points and spreads impact evenly. Individually packed on card, they are convenient to store and display.

These knee pads can be personalised from one piece on a wide range of textiles. Available marking techniques include embroidery, DTF printing, flex, screen printing, transfer, embroidered patches, pad printing and digital printing on items. Recommended for companies, clubs, associations, schools and individuals seeking personalised knee pads.

KEY FEATURES

- Excellent shock resistance.
- Supple, comfortable fabric.
- Meets health and safety standards.
