Standards	ISO 20471:2013 class 2, NF EN ISO 13688, RIS-3279-TOM
Country of origin	Bangladesh
Carton	50 pieces

DESCRIPTION

Unisex high-visibility gilet designed for demanding work settings: straight cut with a semi-elasticated waist and anti-entanglement seams. Made from 100% recycled polyester, it features reflective tape across the chest, shoulders and torso. The five-point separation closure improves safety and the garment is machine washable at 40 °C. It meets EN ISO 20471 Class 2, RIS-3279-TOM and EN ISO 13688 standards while remaining lightweight and comfortable for prolonged wear.

The gilet includes contrast-bound edges and a large marking area suitable for logos and identification. Offered in 1 colour (Fluorescent Orange) and sizes S to 4XL, it fits securely thanks to the semi-elasticated waist and the strategically placed reflective bands ensure good visibility at waist and shoulder level.

Customise this item for your team or event: personalised gilet available on a wide range of textiles and from a single piece. Marking techniques we offer: screen print transfer, MSO transfer, DTF printing, flex (heat transfer vinyl) and embroidery. Recommended for companies, construction sites, clubs, associations, youth movements and private customers seeking visibility and safety.
