For	Men's
Standards	ISO 20471:2013, NF EN ISO 20471, RIS-3279-TOM
Country of origin	Bangladesh
Carton	10 pieces

DESCRIPTION

This men's safety trouser/cropped trouser features a waterproof outer shell in polyurethane and a recycled polyester back panel, designed to keep the wearer dry while offering breathability through contrasting mesh panels. The straight cut, elasticated waistband and press-stud ankle closures make it easy to put on and adjust; welded seams improve water resistance. It is available in several colours, for example Fluorescent Orange and Black, and sizes S to 3XL.

Practically, the garment is fitted with printed high-visibility bands and reflective lower-leg stripes to increase visibility on site; the thick, waterproof fabric provides reliable protection against the elements. Follow the manufacturer's care recommendations to maintain waterproofing and breathability.

The personalised trouser can be customised from one piece on a wide range of textiles and suits companies, sports clubs, associations and private customers looking for safety wear. Available marking techniques include embroidery, DTF printing, flex, screen printing, transfer printing and embroidered badges, and our design studio can vectorise or retouch your logo.

KEY FEATURES

- Made from recycled plastic bottles.

COLOURS (1)

Fluorescent Orange / Black

SIZES

S | M | L | XL | XXL | 3XL
