Country of origin	China
Carton	10 pieces

DESCRIPTION

This unisex padded bodywarmer combines warm insulation with practical detailing for outdoor layering. Constructed in polyester with a fleece lining and a 240 g/m² filled insulation, it features a concealed hood in the collar, a sleeveless cut and quilted panels that retain heat while allowing freedom of movement. It is offered in several colours including Black and Navy and in sizes XS to 3XL.

Practical details visible on the garment include two zippered front pockets and a vertical chest pocket with zip for secure storage. Elastic cords at the hood, armholes and hem allow adjustment for improved fit and weather protection. A detachable label makes re-labelling straightforward for internal distribution.

This personalised bodywarmer can be customised from one piece using screen printing transfers, MSO transfer, DTF printing, flex or embroidery. Recommended for companies, sports clubs, associations, events and individuals needing a warm, brandable outer layer. Customisation available from 1 piece.

KEY FEATURES

- Thermal insulation and heat retention.
