DESCRIPTION

Calf compression sleeves for sports use, offered in sizes XS to XL and suitable for men, women or youth depending on selection. Constructed from 70% nylon and 30% elastane with a seamless 360° knit for a soft hand, good breathability and quick-drying performance. The graduated compression (15–20 mmHg) supports circulation to reduce muscle fatigue during activity and helps prevent stiffness and micro-tears. Follow manufacturer wash instructions to preserve elasticity.

The garment is supplied without a brand label to simplify customization and improve wearer comfort; the long, close-fitting cut covers the calf up to below the knee and provides even compression without visible seams across the performance area.

Order a personalised calf sleeve from one piece: we offer embroidery, DTF printing, flex, screen printing, transfer printing and embroidered patches to add your logo. Ideal for sports teams, clubs, associations, events and individual athletes. Available in several colourways, for example Black/Grey and Red/Black.

KEY FEATURES

- Soft, breathable and comfortable fabric.
- Optimum support for muscular comfort.
- No brand label for easy decoration access.

COLOURS (2)

Black / Grey

Red / Black
