Brand	Spiro
Composition	70% Nylon, 30% Elastane
Material	Nylon, Elastane
Label	No label
Country of origin	China
Carton	50 pieces

DESCRIPTION

Arm compression sleeve designed for performance: a seamless 360° knit that fits the forearm and extends toward the upper arm for consistent support. Made from 70% nylon and 30% elastane, the fabric is soft, breathable and quick-drying. Graduated compression (15–20 mmHg) supports muscles, improves circulation and helps reduce fatigue and minor muscle tears during activity. Available in four sizes (S to XL) and several colour options including Black/Grey and Red/Black.

The sleeve is supplied without a brand label to simplify customisation. Its smooth, elastic finish minimises chafing and keeps the fit during prolonged use. The seamless construction enhances comfort while the high-density knit maintains shape through movement and washing.

Can be personalised from a single piece across a wide range of textiles: we offer embroidery, DTF printing, flex, screen printing, transfer, embroidered patches, pad printing and digital printing depending on the desired effect. Suitable for companies, sports clubs, associations, events and private customers. Our in-house artwork studio can vectorise or retouch your logo. Free quote within 24 h on weekdays, standard production 10 working days, collection at our Evere workshop or delivery in Belgium/France/Luxembourg. personalised arm sleeve.
