Dickies · Ref. SA66

Reference	SA66
Brand	Dickies
Composition	100%
Material	PVA
For	Unisex
Country of origin	France
Carton	50 pieces

DESCRIPTION

Unisex knee pads for work, supplied as a pair and certified to EN 14404:2010 cat. 2 level 1. Made from 100% PVA (polyvinyl acetate) in a bi-density construction, they are lightweight, flexible and padded for comfort during extended kneeling. The one-size design fits into the knee pockets of compatible work trousers and coveralls; the segmented layout follows movement while distributing pressure points. Care is straightforward: wipe clean when needed.

The visible segmented surface improves articulation and helps the pads retain their shape in use. Their supple construction makes them simple to insert and remove without compromising the wearer’s mobility or the garment’s ergonomics.

These personalised knee pads can be customised for companies, sports clubs, associations, events and individuals. Available marking techniques include embroidery, DTF printing, flex, screen printing, transfer, embroidered patches, pad printing and digital printing on items. Customisable from 1 piece; our graphic studio can retouch or vectorise your logo. Free quote within 24 hours on weekdays, standard production, collection at our Evere workshop or delivery in Belgium/France/Luxembourg.

KEY FEATURES

- Light.
- Comfortable.
- Flexible, easy to insert.
