Nitro Series adult mouthguards

Safejawz · Ref. SJNITRO

Reference	SJNITRO
Brand	Safejawz
Composition	% EVA (Ethylene vinyl acetate)
Country of origin	China
Carton	100 pieces

DESCRIPTION

The Nitro Series adult mouthguard features a slim, anatomical profile designed to fit the teeth closely. Made from EVA, it benefits from Fluid Fit™ technology for secure retention and includes a softer inner layer for improved comfort and jaw stability. Intended for contact sports, it comes in multiple colour options (Black / Red, Grey / Yellow, White / Blue) and is easy to rinse with lukewarm water after use.

The design shows external notches and contours that help with fit and impact protection, while the contrasting inner layer provides a cushioning support for the teeth. The Biomaster antimicrobial treatment contributes to better hygiene by limiting bacterial growth during repeated use.

This item can be personalised from one piece and suits sports clubs, associations, schools, events and private customers. Customisation methods available: tampography, screen printing and digital printing on objects; our graphic studio can vectorise or retouch your logo. A practical personalised mouthguard to reinforce your team identity.

KEY FEATURES

- Fluid Fit™ offers incredible retention and a secure fit.
- Treated with Biomaster silver biocide, keeping it fresh and hygienic.
- Jaw Secure™ helps protect your jaw from impacts.
