Fabric weight	220 g/m²
Average weight	0.2 g
For	Men's
Label	Sewn-in label
Country of origin	China
Carton	40 pieces

DESCRIPTION

Men's fitted base layer designed to act as a second skin in cold environments. With long sleeves and a crew neck, its blend of polypropylene, polyamide and elastane keeps it lightweight, breathable and insulating while providing high elasticity and shape retention. The knitted structure visible in the photo indicates targeted areas for ventilation and support; suitable for regular working use.

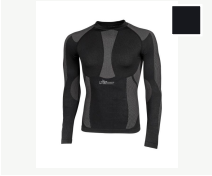

The garment shows close-fitting finishes without prominent seams in key zones, reducing friction under outer layers. Its elastic construction ensures consistent support during physical activity and the length is designed to stay in place beneath workwear.

This personalised base layer can be personalised from one piece and is ideal for companies, clubs, associations and individuals operating in cold conditions. Customisation techniques available: screen printed transfers, MSO transfers, DTF printing and flex. Sizes: S/M to XXL/3XL. Available in 1 colour (Black Carbon).

KEY FEATURES

- Lightweight, breathable and insulating undershirt thanks to the high proportion of polypropylene.
- Durable, non-deformable fabric.
- Second-skin effect thanks to its elasticity.

COLOURS (1)

Black Carbon
