Fabric weight	220 g/m²
Average weight	0.2 g
For	Men's
Label	Sewn-in label
Country of origin	China
Carton	40 pieces

DESCRIPTION

The Caleçon thermique Chamonix is a technical men’s base layer designed to provide thermal insulation and comfort in cold conditions. Made from polypropylene, polyamide and elastane, the garment is lightweight, breathable and highly stretchable, offering a close "second-skin" fit that moves with the wearer. It is available in 1 colour (Black Carbon) and in three size ranges (S/M to XXL/3XL).

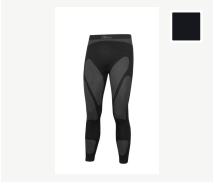

The piece features a snug cut with an integrated elastic waistband and patterned knit zones that enhance ventilation and support. The seamless look at the thighs and lower legs reduces friction and improves ergonomics for operators working in demanding climates.

Customisable from one piece, this item suits companies, sports clubs, associations and individuals: screen printing transfers, MSO transfer, DTF printing, flex and embroidery are possible. Our design studio can retouch or vectorise your logo for production. Practical as a thermal layer beneath workwear, this personalised sweat is offered on a wide range of textile.

KEY FEATURES

- Lightweight, breathable and insulating briefs thanks to the high proportion of polypropylene.
- Durable, non-deformable fabric.
- Second-skin effect thanks to its elasticity.

COLOURS (1)

Black Carbon

SIZES

S/M	L/XL	XXL/3XL

Diagram, measurements in cm and size chart: manufacturer's technical sheet (PDF)

CARE

- Coloured garments withstand 40 °C Normal programme
