DESCRIPTION

The JuCo shopping (totebag) is a rectangular tote made from a 72% jute / 28% cotton blend, offering a natural, structured look. The one-size design gives practical capacity while thick cotton handles make it comfortable to carry by hand or over the shoulder. The woven texture is visible, giving a robust feel for repeated use.

The bag features a flat base and side gussets to expand carrying volume. A simple button closure at the top keeps contents secure without limiting access. Reinforced stitching is visible at stress points, supporting regular daily use.

This personalised shopping (totebag) can be personalised from a single piece and accepts several techniques: screen printing transfer, MSO transfer, DTF printing and flex (flock). Suitable for companies, sports clubs, associations, events and private clients looking for a natural, reusable promotional bag.
