DESCRIPTION

The Day To Day bi-material jacket is a unisex piece designed for daily professional wear. It has a straight cut with a stand collar, raglan sleeves and a quilted front panel for added warmth; the sleeves and shoulders use a four-way stretch softshell for comfort and freedom of movement. Made from 100% polyester with a water-repellent treatment and coating for enhanced weather resistance. Central zip, two zipped front pockets and an interior name label. Available in multiple colours and sizes XS to 5XL.

The jacket features contrast piping at the armholes and contrast zip detailing for durability and a neat finish. The quilted front delivers insulation without bulk while the softshell areas remain flexible and easy to care for.

This jacket can be personalised from one piece and is ideal for companies, sports clubs, associations, events and private customers. Customisation techniques available: screen printing, transfer, DTF printing, flex, embroidery. Our graphic studio can retouch or vectorise your logo ahead of production.
