Country of origin	BD|PK
Carton	20 pieces

DESCRIPTION

The WK802 unisex long boxer is cut close to the body and made from 80% polyester and 20% viscose to provide thermal retention and soft comfort. It features an elasticated waistband for secure support without excessive tightness, a functional fly and tapered ankle cuffs to keep the leg in place. Available in nine sizes (XXS to 4XL) and a single colour (Black), it is suitable as an underlayer for workwear or for activities where warmth and unrestricted movement are required.

Visible details include cuffed ankles and flat seams that reduce chafing and improve comfort during extended wear. Care should follow standard guidance for polyester/viscose blends to preserve elasticity and fit.

This personalised boxer can be customised from one piece using embroidery, DTF printing, flex, screen printing, transfers (single colour or multicolour) or embroidered badges. Appropriate for companies, sports clubs, associations, schools, youth movements and private individuals; our design studio can vectorise or retouch your logo.

KEY FEATURES

- Slit fly.
- Heat retention.
