Carton	30 pieces

DESCRIPTION

Boot bag in 600D polyester, designed to hold a pair of work boots or heavy footwear. The vertical, shaped construction includes a top carry handle and a side zip for easy access. Made from 100% polyester for durability and simple care, it is suitable for professional and club use. Available in several colours, for example Black and Navy, in one size.

The bag features four metal ventilation eyelets to reduce moisture and odours, reinforced seams and a robust side zipper that follows the bag’s profile for smooth removal of boots. A transparent label pocket on the side allows clear identification of contents. The stable base and tailored proportions keep the bag upright when set down.

Personalise this personalised boot bag for companies, teams, associations or private customers: techniques available include screen printing, MSO transfer, DTF printing and flex. It can be personalised from one piece and our studio can vectorise or retouch your logo.

KEY FEATURES

- Ventilation eyelets for better ventilation.
- Ultra-resistant.
