DESCRIPTION

Unisex reversible bodywarmer designed for situations requiring high visibility. The outer shell is polyester with a PU waterproof coating and the reverse side features Navy anti-pilling fleece for added warmth and comfort. It has a full-length zip to the chin and a sleeveless cut that allows freedom of movement. Available in several colours (Hi Vis Orange, Hi Vis Yellow) and sizes S to 3XL.

The bodywarmer includes reflective tape and two hand-warmer pockets on each side for practical on-site use. Its reversible design lets you adapt visibility as needed while keeping the insulating fleece layer intact, and the construction supports straightforward daily care.

Personalised from one piece: we offer embroidery, screen printing transfers, MSO transfers, DTF printing and flex. Suitable for companies, sports clubs, associations, construction sites and events. Our graphic studio can vectorise or retouch your logo; free quote within 24 hours on weekdays.
