DESCRIPTION

This unisex V-neck high-visibility T-shirt is made from ultra-lightweight polyester mesh designed for optimal breathability and quick-drying performance. It has a classic cut with a V-neck and short sleeves, and soft ribbed trims at the neck and sleeve hems for comfort. Available in several colour options and sizes S to 3XL.

The garment features two horizontal reflective bands around the torso to enhance visibility; tidy ribbed finishes preserve flexibility and the classic fit allows comfortable layering. It is certified to EN ISO20471:2013 (category 2) for the colour variants specified by the manufacturer.

This personalised T-shirt can be ordered from one piece and customised using screen printing transfer, MSO transfer, DTF printing and flex. Suitable for companies, sports clubs, associations, events and private customers; our studio can retouch or vectorise your logo prior to production.
