Heat Apply ID Pockets (Packs of 50)

Yoko · Ref. YID04

Reference	YID04
Brand	Yoko
Composition	100% PVC (polyvinyl)
Material	PVC
Country of origin	China
Carton	100 pieces

DESCRIPTION

Thermally applied ID pockets in PVC designed for application onto a wide range of textiles. Supplied in sets of 2, each pocket accepts a card up to 85 x 55 mm (credit card size). The waterproof PVC delivers a durable pocket that is machine washable to 60 °C; application is a single heat operation (130 °C for 10 seconds), providing a tidy, low-profile way to add a card holder without altering the garment's cut.

The pocket features an access slot sized for standard cards and a smooth finish for easy insertion and removal. Performance depends on the textile substrate and correct heat application, making it suitable for workwear, hi-vis vests and other technical garments where a secure ID holder is required.

This item can be personalised from one piece. We offer marking by transfer, screen printing (screen printing), DTF printing and pad printing (tampography) depending on design and substrate. Ideal for companies, clubs, associations, events and private customers seeking an integrated, robust ID solution.

KEY FEATURES

- Space for 85x55 mm cards
- Hard-wearing waterproof card holders
- Iron-on adhesive
