Heat Apply ID Pockets (Packs of 50)

Yoko · Ref. YID05

Reference	YID05
Brand	Yoko
Composition	100% PVC (polyvinyl)
Material	PVC
Country of origin	China
Carton	18 pieces

DESCRIPTION

These thermally-appliable PVC card pockets come as packs of 50 and are designed to attach a card directly to textile. Each pocket accepts cards up to 270 x 110 mm, making them suitable for badges, access cards or event information. The PVC is waterproof and machine washable at 60 °C. Application is a single-step heat press at 130 °C for 10 seconds.

The rectangular shape with welded edges ensures an even bond to the fabric without adding significant bulk. The item is supplied in one size and in several translucent colour options; the photo shows the flat profile and fine border typical of this product.

These personalised other accessories can be marked using screen printing, pad printing or digital printing directly onto the PVC. A practical solution for companies, sports clubs, associations, events and private customers who need visible, washable identification. The product is available to order individually and customisable from one piece.

KEY FEATURES

- Space for cards up to 250x100 mm in size
- Hard-wearing and waterproof card holders
- Iron-on adhesive
