Heat Apply Reflective Tape

Yoko · Ref. YRP01

Reference	YRP01
Brand	Yoko
Composition	100% Polyester
Material	Nylon
Standards	ISO 20471:2013
Country of origin	China
Carton	20 pieces

DESCRIPTION

Reflective heat-seal tape on a roll, designed as a technical accessory to increase visibility on workwear, construction garments or sports kit. The tape is 5 cm wide and 100 m long, made from polyester with a heat-activated backing: apply at 160–190 °C for 10–20 seconds. It is washable at 60 °C and maintains reflective performance in accordance with EN ISO20471:2013.

The product comes as a flexible roll that is easy to cut and position on stable textile surfaces; it is not recommended for nylon or fabrics with durable water-repellent finishes. Durability and adhesion depend on correct heat-press application and laundering; follow the specified temperature and time to ensure best results.

This item can be personalised from a single piece and suits companies, sports clubs, associations and events. Available marking techniques include personalised accessories by embroidery, flex, DTF printing, transfer, screen printing, embroidered patches, pad printing and digital printing. Our studio can vectorise and prepare your logo for production.
